6. (Secret - JGO) Transmitted to Mr. William Darden, Senate Armed Services Committee Staff, a detailed breakdown of the cost estimates set forth in tab 4 of the background materials on H. R. 8427, the Agency Early Retirement Bill, which was furnished him last week. Although Mr. Darden wanted to study the cost estimates breakdown before any discussion with us, he noted he was particularly interested in the Agency assumptions set forth at page 4. At first glance he felt that they failed to take into consideration cases such as those used in illustration, for instance an individual in grade 14, age 39, with 18 years' service. When he has had a chance to study the breakdown during the week, he will be back in touch with us.

7. (Secret - JGO) Transmitted to Mr. James Gehrig, Assistant to Senator Stuart Symington (D., Mo.) a memorandum entitled "Soviet Disinformation Campaign Against The Central Intelligence Agency" in response to the Senator's request of 10 October during the Director's appearance before Senate Foreign Relations.
